Art Unit: 1644

1. Claims 17-19 are pending.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 17-19 stand rejected under 35 U.S.C. § 102(b) as being anticipated by Alles et al., of record, as evidenced by ATCC catalog number 30-2002.

Applicant's arguments filed 8-1-03 have been fully considered but are not found persuasive.

Applicant argues that DMEM would not be considered a pharmaceutically acceptable excipient by those of skill in the art since it has additional components in it that are not excipients.

However, the claimed invention is not limited to the protein and a pharmaceutically acceptable excipients, it is open to additional components because of the term containing. DMEM comprises this definition, as it has NaCl in it.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
